A MEMORABLE SUNDAY.

The Last Day of the Confederacy_cenes in Richmond-The Flight of President Davis-Evacuation of the Capital-The

From Pollard's Life of Jefferson Davis, just publis ed, we copy the following spirited p'cture of the scene which preceded the final evacuation of the Confederate capital:

No sound of the battle-not an echo, not No sound of the battle—not an echo, not a breath had yet reached the doomed city. It was a lovely Sabbath day, and Richmond basked in its beauty and enjoyed more than usual remission from the cares of the week. There were no sounds as of the vexed thoroughfare; the long streets laid open, not a vehicle upon them; the murmur of the river gave tones only to soothe the ear, and the silent pulses of the sushine beat slowly in the misty warm air that laid on the landscape. It was a day of care ess posed principally of Southerpers. Resolutions were unanimously adopted expressing the gratitude of the Southern people to George Peabody for his munificont gift of eight millions for the cause of education in the South. The resolutions will be formally presented to Mr. Peabody to-morrow distincts here; two Hundred at Hot Springs, eighty at the Healing, one hundred and fixed yit the Healing, one hundred and twenty-tive at Alleghany, one hundred and fixed the Services.

THE EDGEFIELD OUTRAGE.

THE NEGROES STILL HOLD THE TOWN.

Citizens to be Arrested.

NEGRO SOLDIERS SENT TO HAMBURG.

Up to Monday morning everything remained quiet at Edgefield Courthouse—that is, no conflict had, up to that time, taken place beween the negro militia, under the command of the carpet-baggers, and the citizens of the county. The Augusta Chronicle and Sentinel has obtained from trustworthy sources the folowing additional particulars:

lowing additional particulars:

The negro militia which captured the town on last Friday morning are still in possession of Edgefield Courthouse. Their commanders now are the notorious State Constable, John B. Hubbard, better known as one of the witnesses against Mrs. Surratt in the military murder of 1865, and two or three others of Scott's myrmi lons. A heavy guard is still posted around the jail, in which two or three prisoners are confined on suspicion of having been "rebel bushwhackers"—one of them being the one-armed Confederate soldier, Lanier. The negro militia are armed with splendid weapons, the same shipped to them from Columbia by Governor Scott on last Friday. The weapons are rides, of the kind known as the "Winchester make," and shoot sixteen times, with great accuracy. with great accuracy.

EICKLEBERGER DISAPPEARS.

The citizens of the village were very much astonished vesterday at the sudden departure of the great incendiary, the scalawag coroner of the county, Eickleberger who is also the commander of a company of colored militia, and was the leader in the celebrated attack on Edgefield last Friday morning. He is now in Augusta.

When it became known throughout the surrounding country that the colored militia, the scalawage and the State spies, had captured a whole town an i were eviden ly about to set up a government for themselves, the negroes of Edgefield became exceedingly jubilant and determined to congratulate the colored soldiers on their great victory. Accordingly on last Sunday the negroes locked into the town to the number of several hundred and seemed highly delighted at the martial sphearance and pompons manner of the sable heroes of the Corps d'Afrique. It is confidently expected that the negro militia will be still further reinforced by the arrival, in a day or two, of one company of United States Infantry, which, it seems, the people are taxed to support. THE MILITIA REINFORCED.

ARRESTS OF CITIERNS. After the negro soldier's have been thus remorroed by the United States troops, their commanders, the State spies and the scalawags, will feel the melves strong enough to commence doing the work which they were sent to Edgefield County to perform. viz: the arrest of catizens on trumped up charges of being "rebel bushwhackers," 'members of the Ku-Kiux-Kian," &c. We understand that when Hubbard took charge of the jail on Friday and placed a guard of negroes around it, he declared his intention of making the prisoners confess who the bushwhackers were. We are not advised as to what was the method put in practice by Hubbard to wring a "confession" from the prisoners; but he has succeeded in accomplishing his purpose we are informed. One of the prisoners in the jail, a white man named Hatcher, has succumbed and made a confession to Hubbard. Whether the wretched man has been induced to take this step by physical torture we, of course, cannot tell, but would not be at all surprised it such prove to be the case, for the State spies will stop at nothing in carrying out instructions from Columbia. Anyhow, it is claimed that Hatcher has told all he knows (and a good deal more besides) about the "bushwackers," and that his story implicates a large number of citizens of Edgefield County, who reside in the vicinity of Philippi Church. The citizens of Eogefield fear that the witnesses in these cases will have their swearing faculties sharpened and their memories refreshed by a course of treatment similar to that pursued by General Meade last After the negro soldiers have been thus retheir swearing faculties sharpened and their memories refreshed by a course of treatment similar to that pursued by General Meade last year at Savannab, while engaged in working up testimony for the Ashburn case. Some of the citizens, however, thing that Hatcher has made no confession, and that it is a convenient fiction concerted by Habbard Vic fiction, concocted by Hubbard & Oo., in order that they may have so ne excuse for their arrests of innocent citizens.

As soon as affairs become somewhat settled at Edgefield Courthouse, a portion of the negre militia will be transferred from that place to Schultz's Hill, Hamburg, for the purpose of overrunning the inhabitants of the ancient teutonic city and protesting the carcasses of Messrs. Arnim and Kennedy, who profess to find themselves in great danger from the machinations of those two terrible organizations, "rebel bushwhackers" and the Ku-Klux. It is well known to our city readers, we suppose, that there is a most excellent lager beer brewery situated at the base of Schultz's Hill, and presume a knowledge of this fact had something to do with the selection of that place for a military encampment by the leaders of "ye nigger melish." It is also rumored that "woolly town," near Graniteville, will also be garrisoned by a detachment, in order that Messrs. Woolly and Realfe may be protected from the terrible bushwhackers. YE MILITIA WILL GARRISON HAMBURG.

A COMMITTEE SENT TO COLUMBIA.

A committee of citizens has been appointed by the people of Edgefield Courthouse to go to Columbia and represent to the carp st-bag tyrant, who acts as Governor of South Carolina, the state of affirs existing in the town, and to protest against the manner in which the people of Edgefield are being treated. This committee left for Columbia on Sunday morning, but the people do net entertain much hope of success of the mission, as one of the State spies also went to Columbia on the same train with the committee, and will doubtless fill Scott full of lies about the thousands of Union men, white and black, who have fallen sacrifices to rotel hate within the past month in Edgefield County. A COMMITTEE SENT TO COLUMBIA.

THE REGROES DESERTING THE PLANTATIONS, &C. Among the numerous evils which have resulted to the people of Edgefield from this invasion of the county by the negro militia has been the desertion of the fields by the negro laborers. Many of the planters have employed negro laborers for the year, and contracted to give them a portion of the crop made instead of wages. As soon as the capture of Edgefield Courthouse by the negro militie was heard of, nearly all of these farm hands left their employers and crowded into the town for the purpose of joining their colored military comrades. Many farmers are thus left high and dry so far as plauting is concerned, and many of them are without a single hand on their plantations. Nice prospect for crops ahead in Edgefield County, certainly!

EIGELEGEROR'S DOUGG IN AUGUSTA.

EICELESERGES DOINGS IN AUGUSTA.

On last Sunday afternoon the haroic commander of the colored militia came to this city on the evening train of the Charlotte, Columbis and Augusta Estiroad. Late Sunday evening Eickleberger went up to the negroe church known as Springheld, and had a long conversation with the negroes. A gentleman whe happened to pass the locality heard that the negroes were told they must organize. It was at first thought that Eickleberger had come to Georgia for the purpose of entisting recruits for his colored company; but this supposition proved to be incorrect, as negroes were sent to him (for the purpose of entrapping the military coroner.) but he refused to employ them. He demes being the leader in the march upon Edgefield Courthouse, but lays the blame of the whole transaction on the shariff of the county. This story however can hardly serve him, es the evidence against him is too conclusive. Up to the date of the present writing Eickleberger was still in the city. RICKLEBERGER'S DOINGS IN AUGUSTA.

PAYING THE TAXES.

TO THE EDITOR OF THE NEWS.

A good deal of dissatisfaction exists about the action of the State Board. Equalization, in increasing the assessments made by the county Assessors. No doubt there is abundant cause for it, in many instances, for even admitting that in any county the general average value may be too low, there may exist particular instances where individuals have placed the very highest estimate upon their property, and, of course, greatinjustice would be done to all such in requiring of them to be ombraced in additional value fixed by the state Board of Equalization, intended to excuse only those whose property may have been underestimated. No one will complain that mistakes should be rectified, if any have been made. If taxes are to be paid at all, the burden should fall equally upon every citizen. No one has, or will claim a right to escape his fair share of the expense of the government by any mere quibble or legal subtlety. What he desires to know is, whother his property has been fairly assessed, and the difficulty with the tax-payer is, how strangers in Columbia can understand the value of lands so well as those who live in the counties where located; and they are naturally dissatisfied when they have to suffer, as they suppose from the judgment of such an incompetent tribunal.

The power of correction ough most is somewhere, and the Legislature is conferred it upon the Board of Equalization Being strangers to the soil, they can only act from comparison of the returns in the several counties, and such information as they may be able to obtain as to particular localities. Of course this information is superficial, and cannot be entirely satisfactory to tuemselves or any one County Assessors. No doubt there is abun-

rison of the returns in the several counties, and such information as they may be able to obtain as to particular localities. Of course this information is superficial, and cannot be entirely satisfactory to themselves or any one else. But, unless the County Assessors are to be omnipotent in their spheres, there ought to be some controlling power, as much to restrict them in making overestimates as underestim tes. It is due to the citizen that no mere subordinate should be allowed to wield a rod of iron over those whom the chance of his appointment has placed in his power, and against whom motives of revenge unight urge him to commit the grossest injustice. No such case has as yet occurred, but, in the nature of things, they may be expected, and, therefore, ought to be provided against. This can only be done by establishing a supervisory board, and this is what has been done, by vesting the power in the State Board of Equalisation. In the instances complained of there may exist just cause of complained of there may exist just cause of complained of there may exist has acided in bad fath or with any evil purpose. It is simply using the powers the State has conferred upon it to effect a proposed object. The citizen is entitled to equality in the burdens imposed upon him, and this board was intended to secure it. If, in its official acis, there has been error, the State Auditor has solved the whole difficulty by opening his office to appeals, and inviting all who feel themselves injured to make application there.

Prue, this may be a "tub thrown to the whale"—a banble to divert public attention from their complaints, by having a prospect of relief—a promise made to the ear and broken to the beart—a hope deferred, that may amuse those who only catch at it to be disappointed; but there is may be a "tub thrown to the whale"—a banble to divert public attention from their complaints, by having a prospect of relief—a promise made to the ear and broken to the beart—a hope deferred, that may amuse those who only catch at

should be barren of results, and the increased assessment must be paid, according to his decision, then, what next? If reastance is expected through the courts, then without some proof of corruption on the part of the Board of Equalization, it is not likely their decision upon a point enbmitted to them by the Legislature will be interfered with. For they have jurisdiction to decide it, the same that a jury has to decide a question of fact, and although their decision may seem to be unwise, yet if there is any aridance. tion of fact, and although their decision may seem to be unwise, yet if there is any evidence in the case that would sustain it, it is their privilege to decide it, upon their own estimate of such evidence. The judge might have decided differently, but he is obliged to respect what the jury has done, in its own particular province. Just so with the Board of Equalization, their decision will be final, unless "corruption" can be traced to their proceedings.

tion, their decision will be final, unless "corruption" can be traced to their proceedings.

So much for a resort to the courts. Any other resistance is revolutionary, and depends for its success upon the relative strength of dissatisfied individuals, and the whole power of the State and Federal governments. With such a prospect before us, any effort in that direction will be utterly hopeless, and therefore it will be best to take no steps that may have to be retraced with disadvantage.

On this subject of general interest these views are respectfully offered for consideration and reflection, and not without that particular interest in the subject which the writer, as one of the chief sufferers, is compelled to feel for himself as well as others—in the hope that they may lead to something practical, and save his fellow sufferers from the counsels of irritated feelings, rather than from their own understandings.

THE "COMING MAN."

An Immigration Agent Sent to China from Memphis-One Thousand Chinese to be Imported Immediately.

The Memphis Avalanche says:

It can no longer be said that Chinese immigration is a dream or a thing on paper. The "ball" is fairly started, and at least one thousand Chinamen, with their rat-traps and pigtails, will he at work in the outton fields of this section before the close of the coming picking season. They will be of the best and most reliable laboring class, and will add greatly to he development of our resources and the restotation of our lands, which since the war, have been relapsing into their original wild state. Mr. George W. Gift will leave here on Thursday of this week in the interest of the Arkan sas River Immigration Company, and is authorized to contract for and bring back 1000 Chinamen, to be delivered to Thos. H. Alien, agent of the company in this city. He goes via the Usion Pacific Hailroad to San Francisco and thence by seamer to Hong Kong, which route will occupy between forty and fifty days. The return trip will probably be all the way by water to New Cricans. In the event that the necessary number and right material can be obtained in Caufornia, Mr. Gift will return at once with them from that place, def rring his trip to China to some future time, or until the experiment of Chinese labor in the cotton fields of the South is fairly made. He is provided with the means necessary for expenses, and has also letters of credit for \$50 000. Here is the first practical step in an enterprise that will no doubt result in great good. Mr. Gift is the man to carry out the business successfully, and his return will be looked forward to with great interest and anxiety. The examples set by the company he represents is one that should be followed throughout the South, and we trust the company organized in Hemphis during the past week, which is to operate 0 a larger scale, will make as quick time in getting under full headway, that the practical results may be experienced before the close of this cotton season. The Memphis Avalanche save :

THE ANTI-COOLIE LAW. In regard to the law of Congress probibiting the cooke trade, about which so much has been said, the Washington correspondent of the Baltimore Gazette remarks:

the Baltimore Gazette remarks:

The "act," about which so much fuss is all at once made, is necessarily wandy inoperative here, because there is nothing whatever for it to operate upon in this country, and never was. It distinctly relates to a species of slaves known as "coolies," and tolerated only in certain "foreign" countries, and never in this since the revolution, as is plainly recognized in the law itself. Herr Ecopmanschapp is simply to contract for laborers in China to ender to America at so much a head—the expense to be deducted from their wages when employed. Elery one professing (a snighten the public mind should know that at least ain as the adoption of the constitution in 1767, the specific performance of such a "contract" cannot be enforced by the courts. The risk must be run by the employer, and, for the edifica-

tion of the tergiversating Radical organs, here and elsewhere. I have it in my pawer to say that #will not be ventured. In this respect the question is no new one, as the early career of the Baltimore and Ohio Railroad will show. They dealt, however, with quite another sort of "coolies" than the Chinese.

A VOICE FOR REPEAL. The New York Times is in favor of repealing or modifying the act of Congress prohibiting the coolie trade, so as to offer no impediment

to the importation of Chinese lahor:

The editor assumes that "there is no longer any doubt of the great value and economy of Chinese cooles as agricultural laborers: they have been tested as common laborers on various public improvements in the West, and have been found more economical than others; but they have not proved to be available as skilled laborers. There is no doubt that the Pacific coast needs laborers, and that Asia will most probably supply that demand for many years to come. The conditions, in an industrial sense, are, therefore, somewhat changed from what they were when the law was passed, and favor its modification. The conditions, politically and socially, are also materially altered, and these also favor the modification of the law. To prohibit the coolie trade entirely is to prohibit the immigration of the Chinese. The coolies are too poor to immigrate without help; their government will not send them, and hence those in need of their labor will have to supply the means of transportation."

—The good old times are not gone ferever. Here is an incident: On the recent trip of a Mississippi steamboat, the clerk had allotted the last state-room and was about to close his office, when he was astounded by the apparition of a tall Missourian, who exclaimed: "I say, stranger, I want one of them chambers." "Sorry, sir," said the official, blandly, "but our state-rooms are all taken." "The d—I they are," responded Missouri; "I've paid my fare'n I want one of them chambers." "Allow me to see your ticket "said the still polite clerk. Putting his hand to the back of his neck the passenger pulled out a ten-inch bowie knife, and driving it quivering into the counter, said: "I'm from Pike County, young feller, and thar's my ticket; I want one of them chambers." Before the steel had ceased to vibrate the prompt clerk quietly thrust a loaded and capped six-shooter under Pike's nose, and cooling answered: "Pve" only got "six chambers, and you see they are all full." The Missourian edged out of "range," and putting up his "tooth-pick," ejaculated: "A fall hand's good, by —."

THE CONDITIONS OF HEALTH.-IT is idle to expect health if the precautions necessary o secure it are neglected. The human organization is a delicate piece of mechanism, and requires as order, as are requisite in the management of the

At this season of the year the body is peculiarly sensitive, because it is greatly weakened and relaxed by the continuous heat. The skip, in summer, with its millions of pores wide open, is a very different cold. ! he muscles, too, are comparatively the nerves tremulous, the blood poor, and the whole frame less capable of enduring fatigue and recisting mmistakable hints that nature needs reinforcing. Ordinary stimulants will not effect this object; They inflame and excite, but do not strengthen. The only preparation which can be depended upon to impart staminal vigor to the system, and enable it to endure the orderl of the heated term without giving way under the pressure, is HOSTETIERE STOMACH BITTERS, a tenic and corrective so pure so harmless, so utterly free from the drawbacks which render many of the powerful astringents employed in medical practice more dangerous than the alments they are employed to cure, that it ay be administered without fear to the feeblest female in: valid, or the most delicate child. The cathartic and alterative vegetable ingredients, which are combined with those of a tonic nature in its composition, keep the bowels moderately free and perfectly regular finest blood depurents which the herbal kingdom affords are also among its components, so that it recruits, purifies and regulates the system simul-
